

# Intelligent Compaction

## Intelligent Compaction Open House

I would like to invite your membership to attend an Intelligent Compaction (IC) Open House that we have scheduled for 10am on Thursday July 16<sup>th</sup> at the Waynesboro Auditorium in Waynesboro.

Map to Auditorium;

<http://www.mapquest.com/maps?city=Waynesboro&state=MS&address=1008+Benton+St>

We will begin with presentations from the National IC project team (<http://www.intelligentcompaction.com/>), and from distributors of each of the 3 rollers that we will be demoing (CAT, Sakai & Case). After the presentations, lunch will be provided for attendees courtesy of Stribling Equipment and Puckett Machinery. IC Rollers will be demoed for Soil Cement Base stabilization and HMA compaction.

After lunch we will go out to the project site, which is Dunn's job on US 84 from Waynesboro to the Alabama State line. The field demos will take place on the western end of the project.

Please distribute this invitation to your membership as we would like to have a good turnout. Also to assist Stribling and Puckett in planning for the lunch, please give me an approximate head count by the end of next week that will be attending from both MRBA & MAPA.

Let me know if you have any additional questions and we look forward to seeing you and your membership on the 16<sup>th</sup>!

Randy
